### BENEFITS

#### Pyroluxe™ Self Cleaning

The advanced self-cleaning function takes all the effort out of keeping your oven clean. By heating the oven to 500C, all food residue is turned to ash, which can then be simply wiped out with a damp cloth.

#### IsoFront™ Cooler Door

The multi-layered glass panes, with reflective coating, keep the heat in the oven while the outside of the door remains cooler to touch.

#### Core temperature sensor

Take the guesswork out of cooking. By monitoring the cooking process at the core of the food, our oven automatically turns off when the desired temperature is reached.

#### SoftMotion™ Hinges

The AEG SoftMotion™ hinges remind the consumer of the quality of their oven every time they effortlessly open and close the door.

#### Active CleanAir™ Control System

By using a maintenance free catalyst to oxidise grease and fumes coming from the oven, the air in your kitchen stays clean and free from unpleasant odours.
