Features

Benefits

Smooth One Piece Black Glass Hob Design with Touch Control

The smooth one piece hob with European inspired Black Glass design makes it both elegant in appearance and easy to maintain. The Touch Control operation offers the smart technology of an electric cooktop with the power of gas cooking.

Timer Function

A convenient and easy way to program the cooking time on any burner. An acoustic signal will indicate when the timer has ended and the burner will switch off automatically.

Safety Lock

A safety feature, the child lock that lets you lock the appliance for cleaning or to prevent accidental switching on by children.

Standby Mode (Clock)

In the standby mode the cooktop burners are off and the control panel is active showing the present time in the display.

Automatic Ignition

Ease of operation, no need for manual ignition, simply touch the control button and the gas connection ignites.

Cast Iron Trivets

Complimenting the black glass design of the hob, whilst providing a non-slip surface for pots and pans.

Front Control Operation

Added safety while cooking as there is no need to lean over a naked flame to operate the controls.

Flame Failure

Extra safety in the kitchen offering peace of mind, the gas will shut off when there is no continuous flame.

Available in Natural Gas or Propane

The cooktop is supplied for natural gas installation, however can be converted for propane application (conversion kit supplied).
