■ DEAR USERS

Thank you for using our Avanti $^{\circ}$ Bluetooth Nutritional SmartScale $^{\text{TM}}$. Please read and keep the manual in order to best utilise this product.

■ ABOUT THE SCALE

This series of products can help you save and keep track of nutritional information on your phone. The scale transfers data to the mobile phone via Bluetooth Technology and also can draw the tendency of nutrient intake in order to check the nutrition intake status at any time. You'll get the first step in dietary management after downloading the application and using our Bluetooth scales.

■ FEATURES

- With high precision strain gauge sensor;
- Low battery power / Overload indication;
- \bullet Zero, tare and mode conversion with touch button;
- Bluetooth function;
- Measure calories, sodium, fat, protein, carbohydrates, cholesterol and dietary fibre;

■ BATTERY INSTALLATION

2x1.5V AAA Battery

Please install battery according to polarity.

Note: Please use corresponding battery. Please remove battery if it is not inuse for a long time (more than three months).

LCD DISPLAY

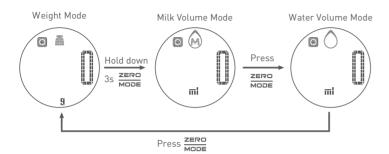

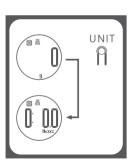

Water Volume Mode

■ MODE CONVERSION

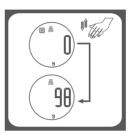

■ TO CONVERT WEIGHT UNIT

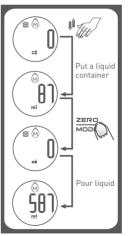

The scale offers both unit systems of metric (kg,g) or imperial (lb:oz). Press UNIT button to convert between the two systems. (You'll see the UNIT button at the bottom of the product, as shown left.)

■ TO START WEIGHING

Weighing Mode

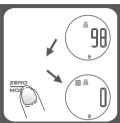

- 1. Place the scale on a solid and flat surface.
- 2. Press the scale platform to turn on.
- 3. Wait until LCD shows "0". Press ZERO button to convert to weighing mode.
- 4. Load object on scale (or bowl) to start weighing. LCD will show the weight reading.
- 5. If use a bowl, press Dutton after placing the bowl.

Volume Indication Mode

- 1. Place the scale on a solid and flat surface.
- 2. Press the scale to turn on.
- 3. Wait until LCD shows "0". Press MODE button to convert to volume indication mode.
- 4. Put a liquid container onto the scale platform. LCD shows weight of container.
- 5. Press button to zero or tare weight.
- 6. Pour liquid (water or milk) into the container, LCD shows the volume of the liquid.

■ "ZERO" OR "TARE" FUNCTION

To weigh different loads consecutively without removing loads from the scale. [Place first load on the scale, get weight reading. Press ZERO button to reset the LCD reading to "0" before adding next load. You can repeat this operation.]

Condition 1: "ZERO" function

When total sum of all loads on scale $\leq 4\%$ of scale's max. weight capacity.

4% = 20g when capacity is 500g 40g when capacity is 1kg 80g when capacity is 2kg 200g when capacity is 5kg

LCD will show "0g" each time ZERO is pressed. It means ZERO function is activated. Max. weight capacity remains unchanged.

Condition 2: "TARE" function

When total sum of all loads on scale > 4% of scale's max. weight capacity.

4% = 20g when capacity is 500g 40g when capacity is 1kg 80g when capacity is 2kg 200g when capacity is 5kg

LCD will show "0g" and "T" each time $\frac{\mathbb{ZERO}}{MODE}$ is pressed. It means TARE function is activated. Max. weight capacity is reduced by total weight of all loads.

Under this condition: By pressing $\frac{\text{ZERO}}{\text{MODE}}$, you can see the total weight of all loads on the scale. If you want to weigh more loads, just press $\frac{\text{ZERO}}{\text{MODE}}$ to reset LCD reading to '0' again.

■ AUTO SHUT OFF (POWER SAVING MODE)

Auto shut-off occurs if display shows '0' or shows the same weight reading for a couple of minutes.

INDICATION

	Warning Indication		Instructions and methods
	Err	Overload Indication	Item on scale is over the max. weight. (Max. weight is indicated on the scale). Please remove item to avoid damage.
	Lo	Low Battery Indication	Battery power is low. Please replace new battery.

CLEANING AND CARE

- Clean the scale with a slightly damp cloth. DO NOT immerse the scale in water or use chemical/abrasive cleaning agents.
- 2. All plastics parts should be cleaned immediately after contact with fats, spices, vinegar and strongly colored foods. Avoid contact with acids citrus juices.

- 6. Place in a cool dry place
- 7. Check the battery if the scale cannot be turned on.
- 8. Designed for household use and non-commercial.

■ HOW TO CONFIGURE AND USE THE APPLICATION

1. Download the app using one of the below methods:

- a. Scan the QR code on this page to obtain the App.
- b. At the "App Store" or "Google Play", search keyword "Senssun Food" to download our application.
- c. Use Apple download link below:
 https://itunes.apple.com/app/id965042401
 Use Android download link below:
 https://play.google.com/store/apps/details?id=com.senssun.food

2. Bluetooth settings:

- a. Make sure that the Bluetooth on your chosen device is turned on before use.
- b. If not enabled, please go to the "Settings > Bluetooth" menu to turn it on.
- c. Press the scale platform to turn on.

3. Software Guideline

Software instructions are continuously updated within the App.

Requirements for mobile devices:

Bluetooth version: Bluetooth 4.0 or above Apple System: iPhone 4S or later, iOS 6.0 or later Android System: Android 4.3 or later

If the application isn't receiving data from the scale

- Verify that the Bluetooth icon in weighing interface is lit.
- Check if the Bluetooth function on an electronic device is on.
- Confirm the scale's power is on and also in the valid range of signal.
- Replace the battery if the battery power is not sufficient.
- Restart the application.
- Reboot the phone and re-establish a Bluetooth connection.

If Bluetooth connection failed

- Confirm that only one electronic device is connected to Bluetooth scales.
- Confirm your phone's Bluetooth version is 4.0 or later.
- * For more features, please refer to the software instruction in the App.

■ HOW TO USE THE APPLICATION

1. Create a new user

- a. Click "Senssun Food" icon, you'll enter the "user settings";
- b. Enter your information, such as: Gender, Name, Date of birth, Height, Weight, Activity level, etc. You can also set a password to protect your information;
- c. Click "Done" to save your information;
- d. You can add up to 12 users in the user management module for Multi-users' dietery management.
