AutoSense Autosense adapts to enhance performance.	Cool tray Cool Tray offers flexible, extra storage.	FreshSeal Crisper	Sphere ice tray
Inverter technology	Reversible door	Multi-flow air delivery system	Flat Door Design
FlexStor™ door bin storage system	SpillSafe™ Glass	Door alarm	Frost free
Egg tray	LED lighting		

BENEFITS

AutoSense: Smarter Cooling Autosense function enables more efficient operation and optimised performance by adapting to your habits, learning your fridge usage patterns, and adjusting its temperature accordingly.	FreshSeal Crispers Our FreshSeal Crispers have seals that assist in preventing moisture loss to retain fruit and vegetable freshness and look after your food the right way.
Stay refreshingly cool Keep your drinks ice cold thanks to our sphere ice tray. With plenty of ice available for all and the slow melting nature of larger sphere ice, you and your family can enjoy ice-cold drinks anytime.	Extra cool storage For additional storage when you need it, the Cool Tray can be used at any time and for any occasion.

Quieter, energy-efficient fridge

For a quieter, more energy-efficient home our inverter technology adjusts to your fridges cooling needs, keeping the temperature just right for your fruits and vegetables while using less energy.*Tests by Eurofins Thailand Laboratory on compressor running noise level.**Internal tested single speed compressor compared to inverter compressor.

Multi-Flow Air Delivery System

Fresher food means tastier food. The Westinghouse Multi-Flow Air Delivery System keeps the temperature stable so every ingredient in the fridge stays fresher for longer.
