

BLUETOOTH SPEAKER SOLO

The Grundig Solo Bluetooth Speaker with its rechargeable lithium-polymer battery, enables a battery life of up to 20 hours. Music streaming is possible up to a distance of 30 meters - thanks to a total output power of 3.5 W RMS, the sound also has an impressive range. You can place the speaker on the edge of the fountain on a hot day in order to cool down while enjoying music, because the device is provided with a splash-proof housing, available in either red or black.

- Battery life: up to 20 hours of music enjoyment
- Integrated passive radiator for dynamic bass reproduction
- Music streaming - range up to 30 meters
- Telephone hands-free function

Music Streaming

The steaming range of Grundig Solo Bluetooth Speaker is an astonishing 30m - the innovative Bluetooth V5.0 with True Wireless Stereo (TWS) technology makes it possible. So you can easily carry your favourite music out into the world wirelessly in the best sound quality.

Battery Life

Battery life of up to 20 hours of music enjoyment. Listen to what you want - and for as long as you want. 20 hours of music enjoyment is possible thanks to the rechargeable lithium polymer battery with 3.7 volts and 1050 mAh.

Splash-proof Housing

At open-air festivals, rainfalls are greeted with euphoria by some, and with horror by others - the Grundig Solo Bluetooth Speaker just keeps going; because its splash-proof housing makes it immune to heavy downpours.
