

### Product Description:

Commercial grade blender specially designed for the home kitchen. With the most powerful motor, unique one touch programs and different speed settings, the Q is able to deliver an advanced texture optimisation for smoother & softer textures.

**Super Quick and Powerful:** With a powerful 1220 Watt motor, the Q has the highest possible motor rating. With 300km/h blade tip speed under load for quick results.

**4 One Touch Programs:** One touch programs feature optimised time/speeds to produce the tastiest results. Create smoother green smoothies and silkier dairy smoothies thanks to the two smoothie programs. Turn ice into snow with pulse/ice crush or get faster cold-to-hot soups easily with the soup program.

**5 Speed Settings:** Easy selection and advanced texture optimisation for smoother & softer textures: fresh cocktails, salsas & dips, nut & bean milks, natural nut butters and fine milled flours.

**Compatible with the Vac Q™:** The Q is compatible with the Vac Q vacuum pump. By removing air from the jug before blending, the Vac Q provides smoother textures, brighter colours and richer flavours to your blend. The Vac Q is sold separately.

**Innovative Lid & Ring Pull:** Clip & Secure™ Lid designed for high velocity tasks, to vent steam and prevent spatter. Breville Assist™ ring pull for easy removal.

**Auto Clean Function:** A one-touch program using clean water/detergent to clean the jug and blades
