

HSCR80420

8KG 6th Sense Heat Pump Dryer

Whirlpool

TECHNICAL SPECIFICATIONS

FINISH	White	
DIMENSIONS	596mmW x 855mmH x 659mmD	
DRYING CAPACITY	8Kg	
DISPLAY	LED digital	
CONTROL	Electronic control knob	
DOOR	White Glass Door	
DRUM CONSTRUCTION	121 L Usable	
PROGRAMS (10)	Cotton	eCotton
	Mixed	Wool Excellence
	Delicates	Synthetics
	Big Items	Airing
	Steam refresh	Drying Time
	Steam option	Drying Time
	Dryness Level	Start Delay
	Key Lock	Cycle End Alert
	Water Conductivity Setting	
	Options: Fresh Care/Gentle/Rapid	
ENERGY CONSUMPTION	158 kWh	
ELECTRICAL INPUT	950 W	
TOTAL CURRENT	10 A	
SAFETY	Key Lock	
	Lockable Door	
PACKAGED WEIGHT	49 Kg	
WARRANTY	Four years parts and labour + Motor with 10 Year Warranty	

FEATURES

HEAT PUMP TECHNOLOGY

Enjoy a superior 7 Star Energy Rating providing the highest energy efficiency and financial savings thanks to Sense Inverter Technology and Heat Pump technology. You'll reap many benefits with a compressor system compared to conventional heating.

6TH SENSE INTELLIGENCE

Whirlpool's 6th SENSE technology empowers appliances to sense the humidity levels within the drum, subsequently adapting cycle duration and temperature. This results in a reduced average cycle time as clothes is dried only as long as necessary, rather than over drying or wasting energy.

3DRY TECHNOLOGY

3DryTechnology uses soft air for gentle yet powerful drying. The patented 3D Airflow technology distributes heat evenly through holes in the lifters, while the unique SoftMove ultra soft drum dries your clothes with a gentle touch. Whirlpool's innovative technologies tailor the cycle to suit your load for outstanding results and garment care.

STEAM CARE

SteamCare technology softens fabric with the help of a steam infusion at the end of the drying cycle. The quick steam refreshes clothing, eradicates any lingering odours and makes fabrics less wrinkly and easier to iron.

WOOL EXCELLENCE

This model includes a setting that provides special care for wool clothing, ensuring each item remains soft, dries evenly and with no need for a wool rack. There is also no need to line dry as the drying cycle is completed in the machine.
