# Safety Information

## CAUTION

**RISK OF ELECTRIC SHOCK  
DO NOT OPEN**

High voltages are used in the operation of this product. to reduce the risk of electric shock, do not remove cover of the cabinet, refer servicing to qualified service personal

	<p>The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating in the literature accompanying the appliance.</p>
	<p><b>Warning</b> The lightning flash with arrowhead symbol within an equilateral triangle, is intended to alert the user to the presence of uninsulated dangerous voltage within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.</p>

# Important Safety Precautions

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at Plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments /accessories specified by the manufacturer.
- 12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used caution when moving the cart/apparatus combination to avoid injury tip-over.

- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.

## Caution:

- 14) To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- 15) The mains plug is used as disconnect device, the disconnect device shall remain readily operable.
- 16) The socket-out shall be installed near the equipment and shall be easily accessible.
- 17) This product should never be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacture's instructions have been adhered to.
- 18) The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquid, such as vases, shall be placed on the apparatus.
- 19) Do not place any sources of danger on the apparatus (e.g. liquid filled objects, lighted candles).
- 20) Wall or Ceiling Mounting - The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.
- 21)  Never place the TV, remote control or batteries near naked flames or other heat sources, including direct sunlight. To prevent the spread of fire, keep candles or other flames away from the TV, remote control and batteries at all times.

- 22) The USB terminal should be loaded with 0.5 A under normal operation.

These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock do not perform any servicing other than that contained in the operating instructions. unless you are qualified to do so.

- 23) The battery shall not be exposed to excessive heat such as sunshine, fire or the like.
- 24)  This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth
- 25) The maximum using environment temperature is 45 degrees.  
The Maximum using altitude is 2000 meters

# TV Bracket assemble

If the current focusing program is not parental locked, it will be played simultaneously in the background.

EPG Weekly Mode

# Other Features

## EPG

### Extended Mode

## PVR

This section is to introduce some contents about PVR, including PVR involved menus, Recording flow, Recorders playback, Recording restrictions.

PVR involved Menus: PVR/Timeshift menu, Partition List menu, Timer menu, Timer Edit menu, Record List menu, REC info menu, Timeshift info menu.

## REC

Press **REC** button to start recording, when there is a program playing, it will pop up a message "Do you want to start Recording?". After confirm, the system will read the speed of the storage device. If the speed is too low for recording, there is a message "Device speed not enough, RECORD anyway?" if user choose Yes, it will record constrainedly. In addition, the speed is high enough, it initializes in the first instance and starts to record later.

## Timer REC

There are two methods to set a timer, As follows:

In the EPG menu user can preengage programs for watching or recording;

Pressing **GREEN** once is to preengage the program only for watching (when timeout, it jumps to the program and only play.

Pressing **GREEN** twice is to preengage the program for recording (when timeout, it jumps to the program and starts recording). if it is timeout in standby mode, it will power on 2 minutes in advance and starts to record under background without powering on the panel. To watch the program, user need to press **POWER**;

The preengaged programs can be checked in Timer menu.

# Other Features

## PVR

In Timer menu, user can increase, delete preengage programs; In Timer Edit menu, user could set modify preengaged programs' information;

In Timer menu: press **YELLOW** to get into Timer Edit menu to add a timer. Then set timer's information in Timer Edit menu.

Flow of setting a timer's information :

Type: Set program type :DTV or RADIO;

Mode: Way of triggering a timer(once/daily/weekly/monthly);

Recorder:"ON": preengage for watching and recording(record). "OFF": preengage only for watching(reminder);

Set the date/time and Duration time (exact to minutes) : Must be reasonable (behind current time);

Timer: when there are some conflicts a warning message will pop up;

Press **MENU** to return to Timer menu and store the timer's information.

When the timer recorder is timeout, it jumps to the very channel and starts to record the program automatically.(if a manual recording is under process, it will stop the manual recording process and starts the timer recorder automatically).When there is left 10s before recorder , a prompted window will pops up;

If there are not any storage media, the settings fail and a warning message "no USB device" shows;

If target partition (default partition) is not set, it selects the first partition that the system identified automatically.

# DVD Setup

Press the “D.Setup” button to enter the DVD settings menu, use the left-hand or right-hand arrow buttons to select the desired menu page (General/Audio/Video/Preferences), and use the up and down arrow buttons to select the items in each menu, then use the right-hand arrow button to enter the selected item. If you then change any setting, press “ENTER” button to confirm the value you changed, press the left-hand arrow button to return to the left submenu; to go back up to one of the main DVD menu pages, press the “EXIT” button.

## 1. General setup page

OSD Language: Set the language of the setup menu and screen display.  
Screen saver; set the screen protection.  
Last Memory: Remember and resume from the position of the previous playback.

Subtitle: Disc subtitle language selection(disc dependent)

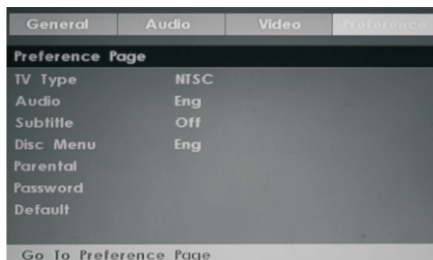

Disc Menu: Disc Menu language selection( disc dependent)

Parental: Set the maximum disc rating ( Kid safe/G/Pg/Pg 13/Pgr/R/Nc 17/Adult) that can be viewed without a password.

(default password is 0000)

Password change the password

Default: Choose this to restore the original default Preference settings

## IMPORTANT NOTICE

This LCD/LED TV panel is comprised of up to 6 million cells which are called pixels. It is not uncommon, in fact quite usual, for a few pixels to be bright and/or dark in the manufacture of this panel. In line with world wide common practice industry standards, it is deemed normal and acceptable for some pixels to be dead. This means that they may either be dark dead pixels [shown as black dot on panel] or can be bright dead pixels [shown as white dots on panel]. Panels with up to 6 dead pixels, dark and/or bright, that appear within a 12 month period, comply with normal industry standard and Palsonic Corporation Pty Ltd reserves the right not to repair or exchange the unit and offer no refund for this occurrence.
