

Everything started more than 80 years ago, when Achille Gaggia filed the patent n. 365726, and invented the Italian espresso with crema naturale. From that moment on, Gaggia Milano has been working to diffuse the espresso culture in houses around the world. Now, the brand combines a unique heritage with authentic Italian design and high technology, to offer a quality and conscious “home barista” experience.

The new fully auto Gaggia Magenta range perfectly embodies all these values, and matches with contemporary lifestyles and consumer habits. At the touch of a button, it is possible to personalize and brew a wide range of coffee and milk-based beverages.

100% Made in Italy, with a contemporary and elegant design, Gaggia Magenta will turn your coffee break into a sensational experience.
