Features & Benefits

What is ActiveSmart™?

ActiveSmart™ consists of a microprocessor, interior temperature sensors, independently controlled variable speed fans and multiple air ducts. The microprocessor controls how the refrigerator operates based on changing patterns of use.

Humidity Control System

Fruit and vegetable quality can be maintained at the right humidity and temperature level. The Humidity Control System, together with the cool and consistent temperature delivered by ActiveSmart™ Technology, creates the perfect microclimate in each produce bin. Two humidity control slides offer settings for both fruit and vegetables to retain optimal moisture and freshness.

Efficient

Alarms on the refrigerator and freezer alert you if the door has been left open. Adaptive defrost means that there is no need for 'holiday mode' settings. ActiveSmart™ will select the best time to defrost based on how the appliance is being used. When you are away, it will recognise lower levels of use and defrost less often, therefore requiring less energy.

Specifications

Capacity

Freezer	97 L
Refrigerator	232 L
Total gross capacity	329 L

Consumption

Energy Star rating	3
Energy usage	371 kWh/year

Design

Door opening	right
Interchangeable doors (conversion kit required)	•
Interchangeable doors (with kit)	•
