Key features	Benefits
Flexible basket	Click the side levers of your top basket to lower it to accommodate tall glasses, or raise to the higher position for maximum room in the bottom section.
Flexible cutlery tray	Positioned above the top basket, this tray eliminates streaks through superior drainage and leaves more room in the dishwasher for plates, pots and pans. Half of this tray can slide on top of the other side allowing bigger plates on the basket underneath.
Child Lock	Child Lock allows you to lock the control panel or door so the setting cannot be changed.
