90 cm, 5 zone induction cooktop, bevelled edge design

Warranty

BLANCOCare™ 2 years parts & labour

Bevelled edge profile

Features

Benefits

Large 28 cm zone

Located on the right hand side this ergonomically positioned zone, not only allows all the other 4 zones to be used comfortably, but it also accommodates an extra large 32cm pan.

11 Power settings

A larger range of power setting means a variety of dishes can be cooked to perfection.

BOOST on all zones

BOOST gives you the maximum amount of power, which means that you can bring recipes to the boil in no time.

Auto off Timer function

With a 99 minute time, you can slow cook your curry, or keep your mash and gravy warm whilst your entertaining.

Delay Start Function

Delay start your cooking so it's done when you get home! Or when entertaining this function can allow you to have more time with your guests because you have pre-programmed your main course to start automatically!

Flexi-Function

From the original nominated temperature you can "interrupt" and turn the power up or down plus set the time you wish to cook at the new power level. Once the time has passed, the cooktop will revert to the original heat setting.

Total Safety protection

This cooktop has 10 safety features which protects you and your family, which includes:

- Child Safety lock
- Spill over protection
- Temperature Limiter (turns the cooktop off if the temperature reaches above 300°C).
- Small utensil detection
- Auto Stop
