Breville

the Big Squeeze™

Product Description:

the Big Squeeze™ with super-sized feed chute juices everything from berries and oranges to wheatgrass and carrots.

The slow juicer that crushes and squeezes to make more juice, with more nutrients and a little fibre for a thicker, smoother texture.

Big Squeeze Technology: A screw and filter design slowly squeezes the maximum quantity of fresh juice from whole foods.

Juice Whole Fruits: The feed chute is largest on-market for slow juicers and allows you to juice whole foods at once.

Juice and Mix: The spout plug lets you pre-mix your juice for a fuller flavour and texture before pouring.

Ultra Quiet Motor: A low impact, 240 Watt motor makes this machine ultra quiet while operating.

Quick Rinse Technology: The spout plug lets you fill up the mixing bowl and completely rinse out the machine in-between juices.

Product Technical Specs:

- **Ultra Quiet 240 Watt Motor:** Powerful low speed extraction method with no heat transfer
- **Two Step Safety Start System:** All parts must be assembled and the lid must lock in place before use.
