

Futura Series

60 Induction Hob

P604ILAGC1GN/20

This advanced induction 60 cm hob has four cooking zones. The induction zones have touch controls and each has variable low-to-high power, and a pan detection system. Residual heat indicators warn if the hob is hot, even when the zone is switched off.

The wear-resistant ceramic glass top with smart bevelled edge and touch controls, mean that the hob is very easy to clean.

Products and packaging are 99% recyclable Bertazzoni Green. Colours shown will vary depending on your screen settings and resolution.
