# the Barista Touch™

### Product Description:

Barista-quality performance, new intuitive touchscreen display with pre-programmed café drinks menu and automatic milk texturing. All within a compact footprint.

A built-in Precision Conical Burr grinder delivers the right amount of ground coffee on demand and with a 3 second heat up time, you go from bean to cup, faster than ever before.

**Intuitive Touchscreen Display:** Simplifies how to make your favourite café coffee in 3 easy steps - Grind, Brew and Milk. You can easily adjust the coffee strength, milk texture or temperature to suit your taste. Then save it with your own unique name. Create and save up to 8 personalised coffees.

**Automatic Microfoam Milk Texturing:** Auto steam wand, allows you to adjust the milk temperature and texture to suit your taste. Delivering barista quality microfoam that enhances the flavour of the coffee and essential for creating latté art. Then it cleans itself for you.

**Precise Espresso Extraction:** Digital Temperature Control (PID) delivers water at precisely the right temperature, ensuring optimal espresso extraction.

**Faster Heat Up Time:** Innovative ThermoJet™ heating system achieves the optimum extraction temperature in 3 seconds. Ready to make your best coffee without the wait.

**Hands Free Operation:** Innovative grinding cradle allows any at-home Barista to grind directly into the espresso portafilter.

**Integrated Coffee Grinder:** With a single touch, the Precision Conical Burr grinder with dose control, delivers the right amount of coffee, on demand, for maximum flavour. Adjustable grind size and dose.
