Ovens that clean up after themselves

Even cleaning up is easier with Westinghouse. Choose a PyroClean oven and with the press of a button you can keep your oven shiny and clean. The oven turns on to an extremely high temperature, turning grease and grime into ash. All you need to do is simply wipe the residue away. No nasty chemicals, no greasy mess just a sparkling clean oven with minimal effort.

A hotter wok helps bring out the flavour

Use high heat to lock in the flavour of your dishes. With durable brass caps and 19 MJ/h you can bring your wok to high heat with even flame distribution. Spice up your cooking and spice up your life.

Clear the air with Hob2Hood
