Product Details

FEATURES

Powerful 17 MJ/HR wok burner

Dual Flame control

Ceramic glass cooktop

Wok stand included

Metalised knob

One hand ignition

Flame Failure Safety Device

Stability with cast trivets

LP conversion kit included
(must be installed by licensed tradesman)

BENEFITS

HIGH-POWERED HEAT

The powerful 17MJ wok burner provides the intense heat needed to lock in flavours and textures when stir-frying at high temperatures.

POWER AND CONTROL

Many top chefs prefer cooking with gas, finding easier to adjust to the subtle nuances of heat. With DualFlame, both the inner and outer burner flames can be adjusted. Choose the inner ring for gentle heating and simmering or add the power of the outer ring for intense stir frying, locking in crunch and flavour.

EASY CLEAN AND DURABLE

The flat ceramic glass surface not only makes it easier to clean burnt-on grease and grime to speed up the cleaning process after cooking but it is also very durable for added peace of mind.

STURDY AND STABLE

Sturdy cast iron supports ensure that your pots and pans are stable while cooking.

SAFETY SHUT-OFF

The flame failure safety device automatically cuts off the gas supply if the flame goes out during cooking. This means you can use your appliance at the lowest power without worrying about the flame extinguishing and leaking gas.

ONE-STEP IGNITION.

Ergonomically designed knobs with built-in electronic ignition means you can light the burners with only one step. Simply push down and turn the knob for an instant flame.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	2
Cooktop type	gas
Materials/Colour	black ceramic glass
Removable trim (for cleaning)	No
Wok included designed to fit cooktop	No
