

SJF01 Slow Juicer

FEATURES

150W motor
Polycarbonate body and hopper
Stainless steel lever
Anti-slip feet

Slow Squeezing Technology (SST™)
150W motor, 43 rpm
Lever for juice density adjustment
500ml juice collection chamber in TRITAN™
Auger and strainer rotating brush in ULTEM™*
4 silicon brushes for a pure juice
"Reverse" function

*ULTEM™ is a SABIC trademark.

ACCESSORIES INCLUDED

2 strainers (fine and coarse)
1 pusher
1 juice container 1L
1 pulp container 1.6L
2 cleaning brushes
1 recipe book with 12 recipes
and recommendations

PRODUCT HIGHLIGHTS

SLOW SQUEEZING TECHNOLOGY

SST™ uses a single gear system to replicate the action of a manual squeeze – but with more pressure.

150W MOTOR

Strong and durable AC motor with low noise and low vibration. A rotation speed of 43rpm preserves the taste and, importantly, the nutrients in fruit, vegetables and nuts.

DENSITY REGULATOR

Allows the user to control the amount of pulp in the juice being extracted, for a thinner/thicker texture as required.

FINE & COARSE STRAINERS

Choice of strainer allows optimum extraction and desired texture level for all manner of fruits, vegetables and nuts

EASY CLEANING

Removable auger, strainer and rotating brushes for easy cleaning.
