FlexStor™ Adjustable Door Bins	Flat Door Design	LED lighting	Multi-flow Air Delivery
Temperature sensor	Frost free	Door alarm	Rear rollers
Adjustable front rollers	Hidden hinges	Inverter technology	Egg tray

BENEFITS

AutoSense: Smarter Cooling Autosense function enables more efficient operation and optimised performance by adapting to your habits, learning your fridge usage patterns, and adjusting its temperature accordingly.	FreshSeal Crispers Keep food fresher for longer with our FreshSeal Crispers. They have advanced seals and humidity control, giving you better flexibility to look after your food correctly. Our seals assist in preventing moisture loss, while the humidity control lets you provide a better environment for fresher tasting food.
Perfect for family favourites Whether you have a party coming up or love your deli meats and cheeses, theres plenty of space for all of your favorites. The Dual DeliFresh Drawer compartment stays cooler than the rest of the fridge, with active cold air circulation to keep your favourites at their best for longer.	Twist Ice & Serve Dispenser Whether its for an afternoon juice or a whisky on the rocks, our easy access twist ice dispenser and tray allows you to just twist and serve ice simply.

Quieter, energy-efficient fridge

For a quieter, more energy-efficient home our inverter technology adjusts to your fridges cooling needs, keeping the temperature just right for your fruits and vegetables while using less energy.*Tests by Eurofins Thailand Laboratory on compressor running noise level.**Internal tested single speed compressor compared to inverter compressor.

Multi-Flow Air Delivery System

Fresher food means tastier food. The Westinghouse Multi-Flow Air Delivery System keeps the temperature stable so every ingredient in the fridge stays fresher for longer.
