### PERFORMANCE MEETS CONVENIENCE

Experience exceptional cooking results with the addition of steam cooking functionality, using between 20-40% steam to unlock fresher flavours, healthier meals and succulent dishes. Plus, achieve maximum cleaning results with minimum effort using pyrolytic cleaning. The automatic cleaning programme burns off food residue from the inside of the oven, making it look new again after the programme has finished. It's the environmentally friendly way to clean your oven without the use of detergents or other harsh chemicals.

### SINGLE-POINT TEMPERATURE PROBE

The single-point probe measures the internal temperature of the food for excellent cooking results, helping you to create meals that are cooked to perfection.

### QUICK AND INTUITIVE WATERLOADING

An integrated 800ml water tank guarantees up to six hours of autonomy with a single water tank fill at the start of preparation.

### NEW GENERATION DOOR
